🪪 Profile

Full-Stack Web Developer who loves turning coffee into clean, scalable code. Skilled in Next.js, React, TypeScript, Node.js, PostgreSQL, and MongoDB, I build user-focused applications that don't just work but work well. Fast learner, consistent, and allergic to messy code. I'm on a mission to craft modern web projects with teams who value clean architecture and getting things done (with a dash of humor, of course).

🧠 Skills

Next.js, React, TypeScript, JavaScript, Tailwind CSS, Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Prisma, Git, Figma, Postman, stripe, chapa, payment, clerk,AI integration — and more libraries and resources
